Simple Title of Memorial: Surgeon Appreciation Day

1 MEMORIAL

2 **70TH SESSION – AMERICAN LEGION AUXILIARY NEW MEXICO GIRLS STATE – 2017**

3 INTRODUCED BY

4

5

6 A MEMORIAL

7 FULL TITLE: Surgeons are the ones who save our lives when they
8 are able to perform a miracle. When we need them they do there
9 best to make our lives easier and comfortable for us to be at
10 ease if we are to sick for them to help.

11

12 WHEREAS, Surgeons are the ones who cut us
13 open to remove a tumor or even a remove something they is in our
14 body that is not supposed to be there. We as patients should
15 cooperate with them and not be lying to them, they need the
16 correct information to save us and if we do not tell them the
17 truth we can potentially be killing ourselves. Surgeons are not
18 perfect they win some and they lose some and what I mean by that
19 is the save lives but also lose some lives either for not
20 catching the disease in time or even for a mistake. Either way
21 they can have problems for losing those patients and might not
22 even be able to sleep or eat. WHEREAS, for stubborn people that
23 think they are smart that the surgeon and knows what is good for

1 them and which sometimes can end up with a loss. They try there
2 best to give you the most help for you and anyone that needs it,
3 to make people healthy again or how they were both they got sick
4 or hurt themselves.

5
6 NOW, THEREFORE, BE IT RESOLVED BY THE
7 LEGISLATURE OF THE AMERICAN LEGION AUXILIARY NEW MEXICO GIRLS STATE
8

9 I believe that surgeons should have more appreciation for all of they things they do because
10 they have to sacrifice their families to help the people in need. They also have to put of with
11 other surgeons that might not think the same and has to figure out what's best for the patient
12 and put there emotions aside to save lives when they need saving.

13
14
15
16 BE IT FURTHER RESOLVED that still Surgeons even Doctor, should have a day for us to
17 remember all the things they do for us and yes some surgeons and doctors may be in the
18 wrong and lost some emotion for all the patients they have lost and can't remember the ones
19 they did save.
