An Act

To provide health insurance for those who qualify for Medicaid but do not qualify due to non-annual (over time) pay.

Be It Enacted By The American Legion Auxiliary New Mexico Girls State 2015

An act to provide medical (health) insurance to those who no longer qualify for Medicaid. Whereas, those who do not qualify for Medicaid due to overtime pay. When requesting for Medicaid, you must submit your last tow months pay stub (pay check), and for those who worked overtime for those two months you must do the same. Those who qualify for Medicaid without overtime are declined Medicaid, even though they do not work overtime every pay period. (some are even only allowed 10 hours overtime) I believe that these people are being cheated out of health insurance due to loop holes and non-annual pay (overtime pay) This is why I would like to pass an act to enable people like these to qualify for Medicaid, based on their annual/weekly/monthly pay. (average pay per pay period)
