An Act

Be It Enacted By The American Legion Auxiliary New Mexico Girls State 2015

Section 1. In slaughterhouses everyday, a cruel and unsafe environment is happening. Whenever a worker is injured or hurt, the companies often lie and say nothing happened so they are not compensated for the companies reputation. It is very dirty and often each level is worse. There's usuall a pool of blood on the floor past workers feet and the workers often urinate or have sexual relations, which is contaminating. Animals are often left deceased for a longer period of time than appropriate and are often. Workers are left to clean blood. Feces, body parts, and etc with very dangerous risk to disease, hot temperatures, and odors. This is an issue because it posts a threat to our society through the food we eat and our workers who are paid very little to do one of the most dangerous jobs in the world.

Section 2. N/A

Section 3. What I want to happen is more compensation and rules for workers. It should be illegal for a company to lie about injuries and food warnings. Workers should not have to work with such unclean conditions. If they do, they should be paid a lot more. This industry is surprising so unclean when it should be the cleanest and safest.

Section 4. N/A

Section 5. Effective Da

This act shall become effective immediately upon its passage and approval by the American Legion Auxiliary New Mexico Girl State Governor or its otherwise becoming a
